## Professional Summary

Motivated computer science graduate and aspiring web developer with foundations in HTML, CSS, Python, and SQL. Eager to start a career in web development, improve JavaScript and React skills and contribute to real-world projects. Looking for an entry-level role for my professional practical experience and become a full stack developer.

## Technical Skills

**Languages and Databases:** Python, JavaScript, HTML, CSS, React.js, SQL, C++

**Tools and Frameworks:** Linux, Ubuntu, Android Studio, Git/GitHub

**Other Skills:** Teaching, Problem Solving, Group Lead, Team Builder

## Experience

**Computer Science Teacher (Part Time)**

**2021-2025**

*Al-Beruni High School Karachi*

## Projects

**Final Year Project (FYP)**

**2021**

*Skin Cancer Detection (SCD)*

- A web and mobile application designed to **detect skin cancer** by analyzing skin images and comparing them with a **database of 10000+ images**.

**Features:**

- Detects and classifies 7 types of skin cancer.
- Image capture and upload functionality.
- Two Portals: **Doctors** (for diagnosis) & **Patients** (for consultation).

**Technologies Used:**

- Python, HTML, CSS, JavaScript (Web App), Java (Mobile App).
